Documentation For Puf-Finder Website

1. Introduction

- **Purpose**: The Dog Adoption website (Puf-Finder) aims to facilitate the adoption of dogs by showcasing available dogs, providing information about the adoption process, and connecting potential adopters with the community.
- **Scope**: The website will include information about the organization, featured dogs available for adoption, adoption guidelines, success stories, and contact information.

2. Design and Layout

Homepage:

- Header with logo and navigation
- o Featured dog section with carousel or grid layout
- o About DAG section with a brief overview and mission statement
- Adoption process overview with steps or infographic
- o Contact form or information with map location

Adoption Page:

- List of available dogs in a grid or list format with thumbnail images
- o Clickable dog profiles leading to detailed pages with more information

• About Us Page:

- o Detailed mission statement and history of the organization
- o Profiles and photos of key team members or volunteers
- Success stories and testimonials from adopters

2.2 Color Scheme and Fonts

- **Color Scheme**: Use warm and inviting colors such as shades of blue, green, and orange to create a friendly and caring atmosphere.
- **Fonts**: Choose readable fonts for both headings and body text. Examples include sansserif fonts like Roboto or Open Sans for clean readability.

3. Technologies Used

Frontend:

- o HTML5 for structure
- CSS for styling
- o JavaScript for interactive elements and form validation

4. Navigation Structure

Header Navigation:

o Home

- o Adoption
- o About Us
- o Sign Up
- o Sign In

5. Functionality

• Homepage:

- Display featured dogs dynamically, possibly with random selection or based on adoption urgency
- o Interactive adoption process overview with clickable steps

• Adoption Page:

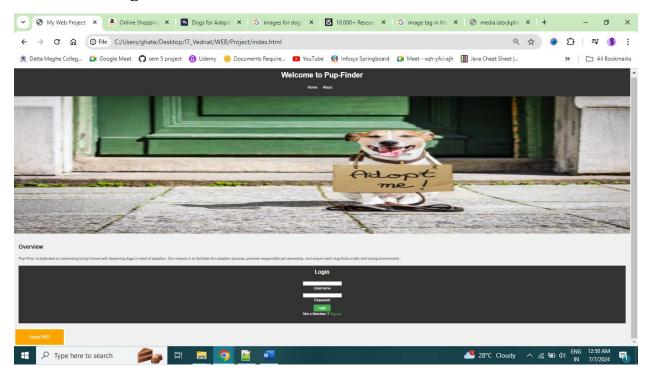

- o Dynamic filtering of dogs based on user preferences (e.g., age, breed, size)
- o Detailed dog profiles with photos, descriptions

• About Us Page:

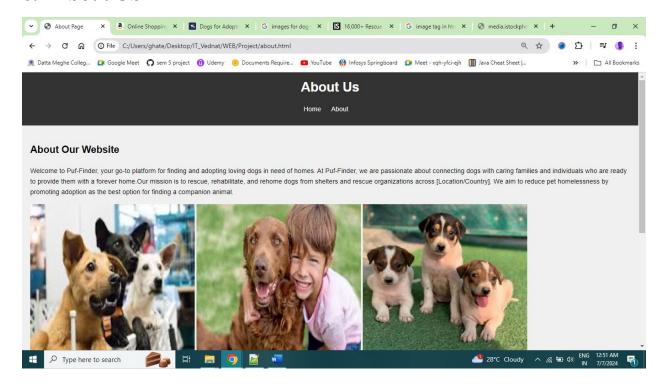

- o Compelling storytelling about the organization's mission and impact
- o Integration of success stories with photos and quotes from adopters

6. Output:

6.1 Home Page

6.2 About US

6.3 Sign Up
